

# We've all heard of **INTERNET SAFETY**

but how often do we  
actually think about it?

Learn about safe online posting and protecting your identity, so the only thing exposed online is your awesome self.

Be in the know about what happens  
when you're on the Internet:

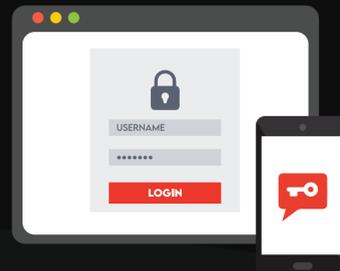

Choose your  
friends wisely

Use a Virtual  
Private Network  
(VPN)

Enable  
notifications

Use Multi-Factor  
Authentication  
(MFA)

Lock your  
devices

Use strong,  
unique passwords

Do regular  
updates

Install anti-virus  
software
